

TROPICAL CYCLONE BULLETIN NO. 8
Tropical Storm “FLORITA” (MA-ON)

Issued at 11:00 PM, 22 August 2022

Valid for broadcast until the next bulletin at 2:00 AM tomorrow

TROPICAL STORM “FLORITA” SLIGHTLY INTENSIFIES AS IT CONTINUES TO MOVE SLOWLY WESTWARD.

Location of Center (10:00 PM)
The center of Tropical Storm “FLORITA” was estimated based on all available data at 125 km East of Casiguran, Aurora (16.1°N, 123.3°E)
Intensity
Maximum sustained winds of 85 km/h near the center, gustiness of up to 105 km/h , and central pressure of 994 hPa
Present Movement
Westward slowly
Extent of Tropical Cyclone Winds
Strong to gale-force winds extend outwards up to 280 km from the center

72-Hour Forecast 8:00 PM 25 August 2022	22.4	110.4	1,195 km West of Extreme Northern Luzon or in the vicinity of Guangxi, China (Outside the PAR)	75	TS	WNW 25

TROPICAL CYCLONE BULLETIN NO. 8

Tropical Storm “FLORITA” (MA-ON)

Issued at 11:00 PM, 22 August 2022

Valid for broadcast until the next bulletin at 2:00 AM tomorrow

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
2 (Gale-force winds prevailing or expected within the next 24 hours)	Cagayan, the southern portion of Babuyan Islands (Camiguin, Fuga, Dalupiri, Pamuktan, Barit, Mabag, Irao islands) Isabela, Quirino, the eastern and central portions of Nueva Vizcaya (Kayapa, Ambaguio, Solano, Villaverde, Bagabag, Diadi, Quezon, Bayombong, Bambang, Aritao, Dupax del Sur, Dupax del Norte, Kasibu, Alfonso Castaneda), Apayao, Abra, Kalinga, Mountain Province, Ifugao, the northern portion of Benguet (Bakun, Kibungan, Buguias, Kabayan, Mankayan, Bokod, Atok), Ilocos Norte, Ilocos Sur, and the northern and central portions of Aurora (Dilasag, Casiguran, Dinalungan, Dipaculao, Baler, Maria Aurora)	-	-
Potential impacts of winds: Minor to moderate threat to life and property			
1 (Strong winds prevailing or expected within the next 36 hours)	The rest of Babuyan Islands, the rest of Nueva Vizcaya, the rest of Benguet, La Union, the eastern and central portions of Pangasinan (Bani, Bolinao, City of Alaminos, Anda, Sual, Labrador, Bugallon, Aguilar, Mangatarem, Urbiztondo, Bayambang, Bautista, Alcala, Santo Tomas, Rosales, Balungao, Umingan, San Quintin, Natividad, San Nicolas, Tayug, Santa Maria, Asingan, San Manuel, Sison, Binalonan, City of Urdaneta, Villasis, Laoac, Pozorrubio, San Fabian, San Jacinto, Manaoag, Mapandan, Mangaldan, Santa Barbara, Malasiqui, Dagupan City, Calasiao, San Carlos City, Basista, Binmaley, Lingayen), the eastern portion of Tarlac (San Clemente, Camiling, Moncada, San Manuel, Anao, Santa Ignacia, Gerona, Paniqui, Ramos, Pura, Victoria, La Paz, City of Tarlac, Concepcion), Nueva Ecija, the rest of Aurora, the eastern portion of Pampanga (Magalang, Arayat, Candaba), the eastern portion of Bulacan (San Ildefonso, San Miguel, Doña Remedios Trinidad, San Rafael, Angat, Norzagaray, City of San Jose del Monte), the eastern portion of Rizal (Rodriguez, San Mateo, City of Antipolo, Tanay, Baras), the northern portion of Quezon (General Nakar, Infanta, Real, Mauban, Perez, Alabat, Quezon, Calauag) including Polillo Islands, the northern portion of Laguna (Santa Maria, Famy, Siniloan, Pangil, Pakil, Paete), and Camarines Norte	-	-
Potential impacts of winds: Minimal to minor threat to life and property			

TROPICAL CYCLONE BULLETIN NO. 8
Tropical Storm “FLORITA” (MA-ON)

Issued at 11:00 PM, 22 August 2022

Valid for broadcast until the next bulletin at 2:00 AM tomorrow

HAZARDS AFFECTING LAND AREAS
<p>Heavy Rainfall</p> <ul style="list-style-type: none"> • Tonight through tomorrow: Heavy to intense with at times torrential rains over Cagayan, Isabela, Cordillera Administrative Region, Ilocos Region, and Zambales. Moderate to heavy with at times intense rains over Camarines Norte, Camarines Sur, Aurora, Quezon, Bataan, and the rest of Cagayan Valley. Light to moderate with at times heavy rains over Metro Manila, CALABARZON, and the rest of Central Luzon. • Wednesday early morning through afternoon: Heavy to intense with at times torrential rains over Ilocos Region, Benguet, and Abra. Moderate to heavy with at times intense rains over the rest of Cordillera Administrative Region. Light to moderate with at times heavy rains over Cagayan Valley. • In the next 24 hours, the Southwest Monsoon will also bring monsoon rains over Western Visayas, MIMAROPA and the rest of Bicol Region. For more information, refer to the Weather Advisory #3 issued at 11:00 PM today. • Under these conditions, scattered to widespread flooding (including flash floods) and rain-induced landslides are expected especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps, and in localities with significant antecedent rainfall. <p>Severe Winds</p> <ul style="list-style-type: none"> • Winds may reach gale-force in strength in any of the areas where Wind Signal no. 2 is hoisted throughout the passage of Tropical Storm “FLORITA”. Strong winds (strong breeze to near gale strength) will be experienced within any of the areas where Wind Signal no. 1 is currently in effect. • In the next 24 hours, gusts reaching strong breeze to near gale strength may be experienced (especially in the coastal and mountainous areas) over Bicol Region, Batangas, Mindoro Provinces, Marinduque, Romblon, Northern Samar, Antique, and Aklan as FLORITA begins to enhance the prevailing Southwest Monsoon. • Based on the track and intensity forecast, the highest possible wind signal that may be hoisted throughout the passage is TCWS #3.
HAZARDS AFFECTING COASTAL WATERS
<ul style="list-style-type: none"> • Under the influence of Tropical Storm “FLORITA” and the prevailing Southwest Monsoon, a Gale Warning remains in effect over the northern, eastern, and southern seaboard of Luzon and western seaboard of Visayas. For more information, refer to Gale Warning #2 issued at 5:00 PM today. • In the next 24 hours, the tropical storm and the Southwest Monsoon will also bring moderate to rough seas (1.2 to 2.8 m) over the western seaboard of Northern and Central Luzon and the eastern seaboard of Visayas and Mindanao. These conditions may be risky for those using small seacrafts. Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.
TRACK AND INTENSITY OUTLOOK
<ul style="list-style-type: none"> • Tropical Storm “FLORITA” will continue moving generally slowly westward tonight before turning west northwestward tomorrow early morning. On the forecast track, the tropical cyclone is forecast to maintain this heading until it makes landfall in the vicinity of the east coast of Isabela or Cagayan tomorrow morning. Afterwards, the center of FLORITA will traverse the rugged terrain of Northern Luzon before emerging over the West Philippine Sea tomorrow evening or on Wednesday early morning. • “FLORITA” may further intensify into a severe tropical storm prior to its landfall. After landfall, there is a potential for slight weakening as FLORITA crosses the northern portion of Northern Luzon due to frictional effects of the rugged terrain. Outside the Philippine Area of Responsibility, this tropical cyclone is forecast to re-intensify into severe tropical storm and may reach a peak intensity of 95 km/h on Wednesday evening.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 2:00 AM tomorrow.
